

PAPA MBAO

Learning Systems Administrator - LMS Configuration, Integrations & Reporting

Calgary, AB | (587) 438-4464 | pap.bconsulting@gmail.com | Bilingual English / French

PROFILE

Learning systems professional with 9+ years administering enterprise LMS platforms Cornerstone, Moodle, SCORM Cloud and Xact, SAP SuccessFactors across configuration, user access and role models, enrolment workflows, data integrity, compliance tracking and reporting. I own the platform side of learning: catalogue and curriculum configuration, content deployment and tracking validation, troubleshooting for end users and administrators, and audit support for stakeholders.

I am also a developer. I build the tooling around the systems I administer, reporting dashboards, Python automation for content pipelines, and custom HTML5/JavaScript where authoring tools fall short. That means I diagnose integration and data-feed problems at the source rather than escalating them, and I can script a reporting or remediation task instead of doing it by hand.

Undergraduate and graduate degrees in communication. Bilingual English/French. Calgary-based and available on-site.

CORE COMPETENCIES

LMS Administration: Cornerstone, SCORM Cloud, Xact, SAP SuccessFactors... catalogue and curriculum configuration, enrolment workflows, user access and role models, assignment and certification tracking, system performance

Standards & Compliance: SCORM 1.2/2004, xAPI/Tin Can, cmi5, AICC, packaging, deployment, tracking validation, compliance reporting, audit response

Data & Reporting: Learner data integrity, system interface and feed troubleshooting, analytics dashboard design, SQL, completion and compliance reporting for program managers

Testing & Rollout: LMS update configuration and validation testing, cross-platform content migration and re-deployment, release verification, end-user troubleshooting and support

Development: JavaScript, Python, SQL, HTML5, CSS3, PowerShell, React, Flask, REST API integration

Authoring: Articulate Storyline, Rise 360, Lectora, Adobe Captivate, H5P, Camtasia, Adobe Creative Suite

Accessibility: WCAG 2.1 AA audit, remediation and inclusive design practice across all deliverables

WORK EXPERIENCE

Senior Learning Developer & LMS Administrator

June 2020 – Present

Xpan Interactive Inc. | Calgary, AB

- Administer enterprise LMS platforms (Cornerstone, Moodle, SCORM Cloud, Xact, SAP SuccessFactors...): catalogue and curriculum configuration, enrolment workflows, user access and role models, learner data integrity, and system performance monitoring.
- Configure and validate LMS updates and content releases, verifying tracking, completion and scoring behaviour before release, and troubleshooting failures across content packages, browsers and devices.
- Assign, track and report on training assignments and certifications; provide first-line troubleshooting to learners and administrators to keep compliance completion on target.
- Deploy and support SCORM 1.2/2004 and xAPI content pipelines with validated tracking, compliance reporting, and audit support for stakeholders.
- Built LMS analytics dashboards surfacing real-time completion and performance data to program managers, replacing manual report pulls and enabling data-driven decisions on program effectiveness.
- Migrated and re-deployed course libraries across multiple LMS platforms, resolving tracking, metadata and packaging differences between systems.
- Increased course completion rates by 25% through instrumented gamification mechanics embedded in SCORM modules.
- Partner with HR, IT, business leaders and SMEs to align learning systems with operational, compliance and safety requirements, requirements gathering, configuration, rollout and handover.
- Developed custom HTML5/JavaScript interactions and Python automation to extend platform capability and remove repetitive production work; applied WCAG 2.1 AA standards across all deliverables.

eLearning Developer - Lectora Specialist

March 2025 – May 2026

Calian Group Ltd (remote contract) | Ottawa, ON

- Delivered SCORM/xAPI-compliant training modules for a national audience, applying adult learning principles and instructional design methodology.
- Extended course functionality with JavaScript and HTML5 for advanced interactive scenarios; ensured WCAG 2.1 AA compliance and cross-platform compatibility.

eLearning Developer

February 2019 – June 2020

Educatus (remote contract) | Brampton, ON

- Integrated H5P, HTML5 and SCORM for multi-device LMS delivery; applied responsive design and accessibility principles across desktop, tablet and mobile.

Multimedia Developer

June 2017 – June 2020

Parenty Reitmeier Inc. | Winnipeg, MB

- Produced eLearning modules, training animations and video for corporate audiences using Storyline, Captivate, Camtasia and After Effects.
- Led localization of courses into French and Spanish, broadening access for multilingual learner populations.

IT Assistant

September 2015 – May 2016

Université de Saint-Boniface | Winnipeg, MB

- Supported the IT department: equipment lifecycle tracking, IT project coordination, and inventory management.

SELECTED SYSTEMS & AUTOMATION PROJECTS

LearnFlow - Enterprise Learning Platform

2025 – Present

Architect & Developer | React, Auth0, Cloudflare

- Designed and built a learning platform with separate learner and admin applications, including the full role-based access control model - the administrator's view of how an LMS should be configured, built from the inside out.
- Implemented authentication, role and permission design, and a scoped API for the backend service; preparing a pilot with two external enterprise partners.

Content Production Automation Toolchain

2025 – 2026

Python, Flask, Adobe ExtendScript

- Built tooling now in daily use by a content team: a Python extraction utility, a Flask web application for team-wide access, and an InDesign formatter driven by a configurable style map.
- Built a Python comparison engine that diffs PowerPoint decks - recursing into grouped shapes and comparing tables cell-by-cell - to automate a manual content review step.

EDUCATION

Master of Multimedia Communication

2010 – 2012

Université Libre de Dakar | Dakar, Senegal

Bachelor of Public Relations, Advertising & Applied Communication

2007 – 2010

Université Libre de Dakar | Dakar, Senegal

Diploma in Multimedia Communication

2014 – 2017

Université de Saint-Boniface | Winnipeg, MB
